

DESCRIPTION

"A nutritionally complete delicious treat."™ LabTreat™ Primate Pellets are a nutritionally complete grain-based diet for non-human primates. Available in several delicious flavors, they are designed for enrichment, reward, behavior modification, and general nutrition.

One-half inch diameter pellets are ~3/4" long and vary in weight from ~3 to ~3.3 grams each. Each 3-gram pellet contains over 25 mg of Vitamin C.

Storage conditions are particularly critical to TestDiet® products, due to the absence of antioxidants or preservative agents. To provide maximum protection against possible changes during storage, store in a dry, cool location. Storage under refrigeration (2° C) is recommended. Maximum shelf life is six months. (If long term studies are involved, storing the diet at -20° C or colder may prolong shelf life.) Be certain to keep in air tight containers.

Product Forms Available*	Catalog #
1/2" Pellet, Banana Flavor	1811733
1/2" Pellet, Banana Flavor, Dyed Yellow	1811734
1/2" Pellet, Orange Flavor	1811735
1/2" Pellet, Orange Flavor, Dyed Orange	1811736

*Other Forms Available By Request

INGREDIENTS

LabDiet Certified Primate Diet 5048, Banana Flakes, Ascorbic Acid. Color and/or flavor added where applicable.

Made with Certified LabDiet® 5048 and human-grade flavoring agents, these pellets may be certified for toxicology/GLP purposes—please inquire

FEEDING DIRECTIONS

As an enrichment treat or reward, or ad libitum as a complete diet. Plenty of fresh clean water should be available at all times.

CAUTION:

Perishable - store upon receipt.
For laboratory animal use only, not for human consumption.

1. Based on the latest ingredient analysis information. Since nutrient composition of natural ingredients varies, analysis will differ accordingly. Nutrients expressed as percent of ration on an As Fed basis except where otherwise indicated. Moisture content is assumed to be 10.0% for the purpose of calculations.
2. NDF = approximately cellulose, hemicellulose and lignin.
3. ADF = approximately cellulose and lignin.
4. Energy (kcal/gm) - Sum of decimal fractions of protein, fat and carbohydrate x 4,9,4 kcal/gm respectively.
