

**DESCRIPTION**

Purina TestDiet® Monkey Delight® Enrichment Tablets are five gram, nutritionally complete monkey tablets made with purified ingredients. These tablets are intended to provide additional nutrients, especially vitamin C, in a highly palatable form. They are useful as enhancement treats too.

Storage conditions are particularly critical to TestDiet® products, due to the absence of antioxidants or preservative agents. To provide maximum protection against possible changes during storage, store in a dry, cool location. Storage under refrigeration (2° C) is recommended. Maximum shelf life is one year. (If long term studies are involved, storing the diet at -20° C or colder may prolong shelf life.) Be certain to keep in air tight containers.

1. Formulation based on calculated values from the latest ingredient analysis information. Since nutrient composition of natural ingredients varies and some nutrient loss will occur due to manufacturing processes, analysis will differ accordingly. Nutrients expressed as percent of ration on an As-Fed basis except where otherwise indicated. Moisture content is assumed to be 10.0% for the purpose of calculations.  
 2. NDF = approximately cellulose, hemicellulose and lignin.  
 3. ADF = approximately cellulose and lignin.  
 4. Energy (kcal/gm) - Sum of decimal fractions of protein, fat and carbohydrate x 4,9,4 kcal/gm respectively.
