ENRICHMENT AND HEALTH PRODUCTS**

LABTREAT ENRICHMENT PRODUCTS

5TJV

“A Nutrient Rich Delicious Treat”

Our LabTreat Enrichment Products are perfect for reward, reinforcement, and psychological well-being.

FORAGING BITS

Foraging Bits are designed to provide environmental enrichment to primates and other mammals. The small size and palatability of this diet make it especially suited for foraging. By maintaining a proper balance of nutrients, animals can be allowed to forage without creating a dietary imbalance. This diet can also be used as an additional source of dietary fiber for animals requiring supplemental fiber.

- **5TJV** – Foraging Bits

5B1Y

PRIMATE CRUNCH®

Primate Crunch® is a highly palatable, crunchy treat, formulated for dietary enrichment. Primate Crunch® is nutritionally balanced to ensure non-human primates receive all of the necessary nutritional components.

- **5B1Y** – Primate Crunch®

5LON

MONKEY JUMBLE®

Monkey Jumble® is a yummy, tasty treat for primates of all ages and sizes. Monkey Jumble® is a fusion of seeds, fruits and vegetables for enhanced palatability. The assortment of flavors and textures will keep primates interested for long periods of time.

- **5LON** – Monkey Jumble®
- **5LRN** – Monkey Jumble® Nut-Free Irradiated

5LRN

MONKEY MORSELS

Monkey Morsels is a delicious, tasty treat to provide environmental enrichment to primates of all ages and sizes. The fusion of small fruits, seeds, and vegetables make it especially suited to encourage the natural foraging instincts of primates. The unique sizes, shapes, and palatability of this snack will keep primates interested for long periods of time.

- **5LOM** – Monkey Morsels
- **5LRM** – Monkey Morsels Nut-Free Irradiated

5LOM

5LRM

VEGGIE RELISH™

Veggie Relish™ is a healthy, delightfully tasty snack for animals of all sizes and ages. The zesty flavors of tomato, carrots and sweet potatoes are just a few of the yummy tastes that will quench your animals' palate. The unique sizes, shapes and palatability of this blend will keep your animals nibbling, engaged and entertained over time.

- **5LRV** – Veggie Relish™ Irradiated

ADVANCED PROTOCOL® PICOLAB® NATURAL SUNFLOWER

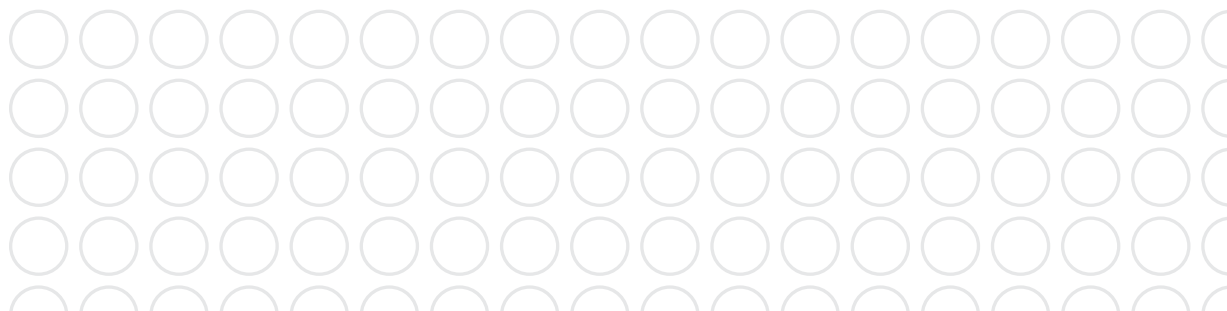

LabDiet® Advanced Protocol® PicoLab® Natural Sunflower Seeds provide additional activity for laboratory animals. They are an excellent source of fatty acids and amino acids to supplement daily rations if needed. These human-grade, edible grey striped sunflower seeds are the single ingredient, providing a natural and nutritious treat. Irradiation treatment and special packaging provide virtually bacteria-free dietary control.

- **5LP8** – Advanced Protocol® PicoLab® Natural Sunflower

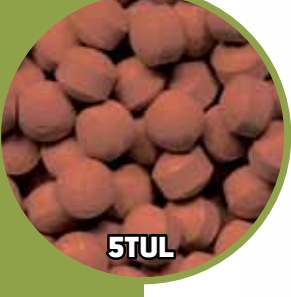

PICOLAB® CERTIFIED TIMOTHY HAY CUBES

PicoLab® Certified LabDiet® Timothy Hay Cubes are an excellent source of highly palatable, high-quality fiber made from sun-cured timothy hay. High fiber aids in the digestive process of fore- and hindgut fermenters and helps maintain a healthy GI Tract. Each cube is crafted using 100% sun-cured timothy hay and the compressed form helps eliminate the mess of hay.

- **5LRT**– PicoLab® Certified Timothy Hay Cubes

LABTREAT ENRICHMENT TABLETS & PELLETS

“A Nutrient Rich Delicious Treat”

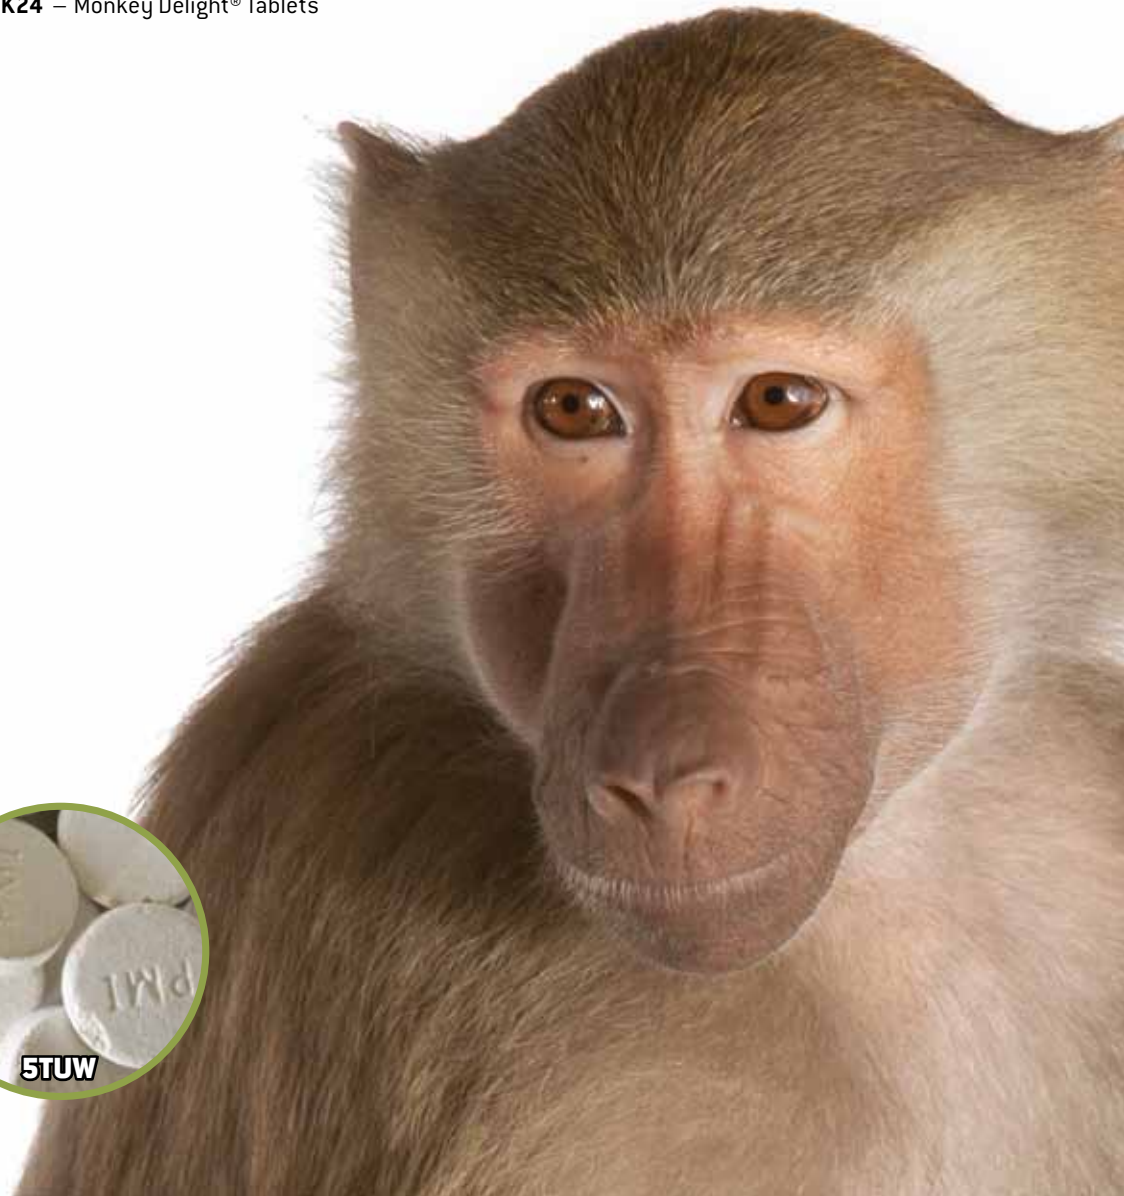

LabTreat Enrichment Tablets & Pellets are perfect for research. With tasty LabTreat Tablets & Pellets, you can enhance your enrichment program, reward positive responses, and reduce undesirable behaviors.

LabTreat Enrichment Tablets & Pellets supply 100% complete nutrition*, while providing physical and mental stimulation. Enticing aromatic flavors stimulate both taste and smell. The 5-gram wafer size fits most standard enrichment devices: balls, foraging toys, etc. Available in many sizes.

MONKEY DELIGHT® TABLETS

Monkey Delight® Tablets are a traditional Purina favorite for primate enrichment providing sound nutrition.

- 5K24 – Monkey Delight® Tablets

LABTREAT ENRICHMENT TABLETS

LabTreat Enrichment Tablets are nutritionally sound* tablets designed for precise feeding. These tablets offer a no-mess option for enrichment, reward, behavior modification and general nutrition. Tablets are available in a variety of sizes and can easily be used in commercial dispensing devices.

- **5TUQ** – Purified Non-Human Primate Tablets
- **5TUR** – Grain-Based Non-Human Primate Tablets
- **5TUT** – Sucrose Reward Tablets
- **5TUL** – Purified Rodent Tablets
- **5TUM** – Grain-Based Rodent Tablets
- **5TUW** – Cellulose Tablets (Calorie-Free)
- **5TUZ** – Pigeon Tablets
- **5TVM** – Rabbit Tablets
- **5TVZ** – Guinea Pig Tablets
- **5TVY** – Softbill Bird Tablets

** Sucrose and Calorie-Free Reward Tablets are not a complete diet and should be used sparingly as a reward.*

LABTREAT OMNITREAT® ENRICHMENT TABLETS & PELLETS

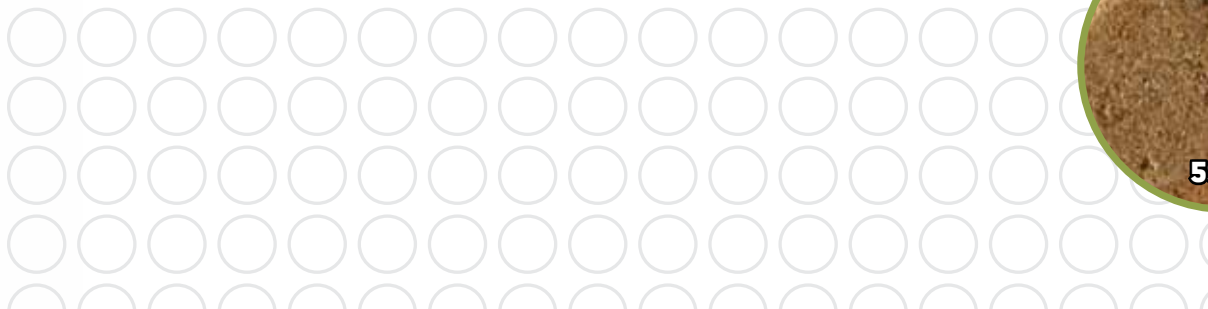

LabTreat OmniTreat® Enrichment Tablets & Pellets are purified ingredient diets for non-human primates, rodents and other omnivorous mammals, which are specifically designed for enrichment, reward, behavior modification, and general nutrition.

- **5TCY** – LabTreat OmniTreat® Enrichment Tablets
- **5B1X** – LabTreat OmniTreat® Enrichment Pellets

LabBits™

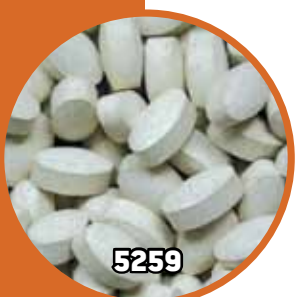

LabBits™ canine reward tablets are healthy, tasty, easy-to-feed treats for obedience training or just pure enrichment. They're made of the same natural ingredients as our LabDiet® canine diets to provide continued nutritional support. Dogs will love the flavor of these savory treats!

- **5SZZ** – LabBits™ Canine Reward Tablets

HEALTH PRODUCTS

Our health products are specially designed to enrich performance by providing your laboratory animals with supplemental nutrients to promote well-being.

PRĪMADE® HYDRATING ELECTROLYTE REPLENISHER

PRĪmade® Hydrating Electrolyte Replenisher powder is mixed with water or other liquid for a refreshing nutritious drink. PRĪmade® provides non-human primates (and other mammals) hydration, electrolyte replenishment, and vitamin C. A low calorie alternative, PRĪmade® No-Cal Hydrating Electrolyte Replenisher, is also available.

- **5B3Q** – PRĪmade® Hydrating Electrolyte Replenisher
- **5B3P** – PRĪmade® No-Cal Hydrating Electrolyte Replenisher

VITAMIN SUPPLEMENT TABLETS

Vitamin Supplement Tablets for non-human primates are designed to supplement a regular dietary program. Vitamin Supplement Tablets for non-human primates meet the normal daily vitamin needs of most non-human primates eliminating the need to feed fresh fruits and vegetables. These tablets are a balanced blend of fat-soluble and water soluble vitamins. The tablets are chewable, orange-flavored, and easy for the primates to hold and consume. Each has a uniform size and precise weight.

- **5290** – Primate Vitamin
- **5298** – Monkey Mini MV
- **5259** – Monkey Mini MV *plus iron*

PRILIEVE™ SERIES

Medicated tablets intended for the maintenance of health or the prevention or treatment of disease and illnesses associated with gastrointestinal disorders. Custom additions of drugs to tablets are also available (i.e., Fenbendazole, Tetracycline, Doxycycline).

We can add veterinary recommended medications to any grain-based or purified diet and then form it into convenient exact weight tablets. It is an effective method for precise dosing that is efficient, economical and accurate.

Medications we can add to diets include (but are not limited to) acetaminophen, amoxicillin, aspirin, "Bactrim" (sulfamethoxazole and trimethoprim), "Baytril" (enrofloxacin), "Cefa-Tabs" (cefadroxil monohydrate), "Clavamox"/"Augmentin," erythromycin, "Flagyl" (metronidazole), ibuprofen, "Keflex," prednisolone, and tetracycline. We can add combinations of drugs as well; for example, the Helicobacter treatment of amoxicillin, metronidazole, and bismuth.

- **5B4H** – Bismuth Subsalicylate Tablets
- **5T4Z** – Bismuth Subsalicylate + Enrofloxacin (Baytril) Tablets
- **5T4Y** – Enrofloxacin (Baytril) Tablets
- **5TBP** – Kaolin Pellets
- **5W56** – Papaya Tablets
